

AP 1500S

Stilling

AP 1500S is a curtain track for installation directly into ceilings and panels. If you want an ultra-discreet and almost completely invisible track, the AP 1500S is the right solution. It creates a beautiful, extravagant look with curtain fabric cascading from floor to ceiling. The track is easily mounted with screws directly through the pre-drilled holes using our mounting tool (art. 1590). Produced in minimum 75% recycled aluminium making it part of our SUSTAIN™ portfolio.
